## ASPENX PRADA SKI COLLECTION

Aspen Skiing Company's newly launched Aspenx partners with Prada for a sleek ski capsule. The technical collection was designed in collaboration with ski professionals and offers three pieces in both men's and women's styles — two outerwear options and a jersey hoodie. All of the garments feature a bold graphic pattern designed by artist Paula Crown and are made from eco-sustainable materials, including post-consumer recycled polyester and a waterproof fabric created by the French fashion house. Each item is finished with a red Linea Rossa logo.
